SIMBA – Deliverable Report

D7.4 – Final data management plan

Deliverable No.	SIMBA D7.4	
Related WP	WP7	
Deliverable Title	Final data management plan	
Deliverable Date	2024.06.30	
Deliverable Type	REPORT	
Dissemination level	Confidential – member only (CO)	
Written By	Arjo Roersch van der Hoogte (UNR)	2024.05.17
Checked by	Piter Miedema (UNR)	2024.05.18
Reviewed by (if applicable)	Dario De Carolis (TUDa) Ivana Hasa (WMG)	2024-06-17
Approved by	Ralf Riedel (TUDa)	2024-06-24
Status	Final	2024-06-26

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 963542.

Publishable summary

After 3,5 years, the SIMBA project has generated multiple data on the development of sodium-ion materials (PW, HC, SiCN, SiOC, polymer), the characterization of these materials (NMR, electron microscopy, XRD, cycling performance data etc.), the assembly of the SIMBA cells (baseline, prototype) and the recycling and reclamation of these cells and materials. During the General Assembly held in December 2023, a work session was organized to discuss this collection of data and which of this data can be made publicly available. As requested by article 25.3 from the EC Grant Agreement, the SIMBA consortium is asked to make certain data publicly available to third parties.

The outcome of the work session in December 2023 will be described in this D7.4 Final Data management plan. In that sense, that the deliverable will provide an overview of the data which the SIMBA consortium has decided (for good reasons) as confidential data and as publicly available data. The open data will be made publicly available on the Zenodo repository.

6 Appendix A- Acknowledgement

The author(s) would like to thank the partners in the project for their valuable comments on previous drafts and for performing the review.
